

*Letter from Mrs. Cameron - May 6, 2008*

**Dear Mr. Bailey:**

On April 30th and May 1st we had windows installed by your company at the above address.

All of the windows in our house were installed by some of the most efficient workers we have experienced. The men worked harmoniously together, were extremely polite and most willing to please. They cleaned up after themselves in what was obviously their professional manner.

Thanks to these men the entire process of the installation was less painful for us. Please extend our most sincere thanks to these gentlemen for their efficiency on a job well done.

Both my husband and I would highly recommend your company to our friends largely based on the work, the product speaks for itself and to this point has met our expectations.

Yours truly,

The Cameron Family
